Re: CB2019.03.SX, CBD Product Related Sponsorships

CBD Product Related Sponsorships

Due to the ongoing issues arising from CBD Product sponsorships, we are providing the following notice to riders and their teams.

- The law regarding CBD products, including their lawful sale, possession, advertising, and sponsorship of them, is unsettled.
 - Notwithstanding the change in federal law in December 2018, there are no federal regulations in place yet on how these products can be advertised or promoted.
 - CBD and related products are not completely legal in all 50 states and there are various restrictions on their sale and promotion.
- Signage or promotional displays for CBD-related products will not be allowed in the pit areas.
- No rider will be allowed to race with logos or other promotional displays on their person, their uniform, their gear, or on their bike.
- The AMA will be enforcing this at inspection points and at any other time a violation is brought to the attention of Feld Motor Sports or the AMA.
 - Riders will be required to cover or remove any logo before being allowed to race and at no time during the event are the display of CBD-related logos permitted.
 - Failure to comply with this will result in a rider being removed from a race or denied entry.
- In addition, sanctions may be applied pursuant to the AMA Supercross rule book for any rider who violates this policy.
- This will remain in effect until further notice.
